

DEI in Graduate Physics Education

- **Diversity** - Working to change the representation of applicants and admitted students through active recruiting (e.g., at SACNAS or NSBP)

- **Equity** - Changing admissions criteria to remove barriers for applicants; Creating structures that support the transition to graduate physics programs (e.g., the APS Bridge Program)

- **Inclusion** - Creating a governance structure where graduate students participate in and vote on departmental decisions; Implementing a departmental code of conduct and the associated accountability practices
